Greetings,

The Fall Summit November 18-21, 2013 at the Arizona Grand Resort and Spa in Phoenix, AZ is quickly approaching and the conference planning team has created a fantastic slate of sessions and networking opportunities that you will *not* want to miss.

There will be a number of CISO sessions this year as well as member led sessions on topics such as governance and controls,/managing upwards, cloud computing, and understanding and leveraging the federal cyber security framework.

Be sure to attend sessions to hear about important FS-ISAC initiatives such as automated cyber intelligence sharing. Member only sessions include discussions on defining and prioritizing threats internally, using cyber intelligence to drive efficient allocation of resources, challenges in e-discovery and records management and designing an intelligence security program to keep pace with advanced adversaries. To see a description of these and many more excellent sessions, go to the brochure now available on the Summit website at http://www.fsisac-summit.com/.

Remember, Premier and above members attend at no cost as part of your membership, this includes all meals and events during the conference and transportation to and from the airport to the resort. Please plan now to attend.

2013 FS-ISAC Fall Summit

Regional Workshops Offer Great Opportunity

Plan now to attend two great upcoming regional workshops. On **October 7th**, join FS-ISAC and Desjardins in Montreal for a great workshop on business resiliency and a networking event following. Topics include Business Continuity Planning: The Crucial Role of Intelligence presented by Michel Juneau-Katsuya formerly with the Royal Canadian Mounted Police and the Canadian Security and Intelligence Service (CSIS) and published author as well as a panel consisting of the Chair of the Communications ISAC, the Manager of the (Electric Sector) ES-ISAC and the Global Head of Business Continuity and Crisis Management at DTCC on real lessons learned from Super Storm Sandy.

Another great workshop will be held in Cincinnati on **October 24th** with a networking dinner the night before. Join FS-ISAC, Fifth Third Bank and Comerica for a workshop on Exploits: Prevention, Detection and Response. The workshop will cover, trends in exploits and a demo of how an exploit is developed, delivered and infects machines and networks. In addition there will be several member discussions around best practices for developing detection capabilities internally, malware analysis practices and how institutions are dealing with infections. Registration is open at the FS-ISAC website under the Events tab at www.fsisac.com. Breakfast and lunch are included and the workshops are **FREE**.

CAPP Exercise Registration Open
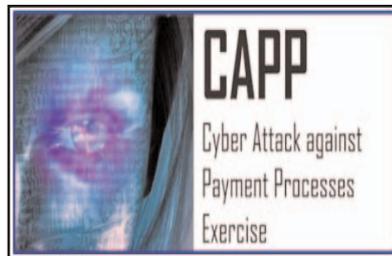

Registration is now open for the FS-ISAC Cyber Attack Against Payment Processes (CAPP) Exercise, which will be held on **October 16-17** and **23-24, 2013**. These CAPP exercises sessions are designed for financial institutions that provide payment services. Participants can choose one of the two-day virtual exercises. Deadline for the October 16-17 session is October 14, 2013 and the deadline for the October 23-34 session is October 21, 2013. Participation is free and the exercise should require less than an hour per day. For more information or to register, go to the FS-ISAC website at www.fsisac.com and click on CAPP Exercises under the Events tab on the home page.

Mark Your Calendars For Upcoming Free Webinars

The FS-ISAC and Guardian are hosting a complimentary webinar **Wednesday September 11, 2013** at **1:00pm ET** on **A New Vision for Fraud Prevention: Marrying Threat and Behavior Data.** In addition, RSA and FS-ISAC will be holding a free webinar **Wednesday September 25, 2013** at **1:00pm ET** on **The Preventive and Responsive Sides of Cyber Security.** And on **Thursday September 26, 2013** at **2:00pm ET** the FS-ISAC and Akamai are hosting a complimentary webinar on **Denial of Service and Data Breach Attacks: How Industry Information Sharing Helps Defeat Cyber Threats.** As usual, all who register for a particular webinar will receive a link to the webinar recording. To register go to www.fsisac.com and click on the webinar listed in the Upcoming Events section on the home page. For any questions contact the webinar team at webinars@fsisac.com.
