

Greetings,

In 2013 there are nine open Board of Director positions up for election. Five of those seats are for existing Board director seats, each of which is for a three-year term. The other four seats have staggered terms of one and two years and are filling two vacated seats and two additions made to the number of directors.

The nomination deadline was October 9th and FS-ISAC received fourteen nominations for the nine open positions.

The next step is to form the Nominating Committee to review the nominations from the membership and to determine the slate of candidates that will be sent to the Board for approval. The Nominating Committee will consist of the Board Chair, the Board Vice Chair, who will serve as the Chair of the Nominating Committee, one at-large Board Director appointed by the Chair and approved by the Board and two members at-large appointed by the Chair and approved by the Board.

The Board has directed that the Committee select individuals based upon three main criteria: a strong contributor and advocate of the FS-ISAC, a respected individual among peers as well as influential in the industry, and a representative of the diversity of the different types of firms that make up the membership of the FS-ISAC.

Look for a slate to be presented within the next 3-4 weeks.

FS-ISAC Celebrates 14 Years

FS-ISAC was founded 14 years ago in 1999 when the banking and finance sector decided to form an information sharing group recommended by Presidential Decision Directive-63 signed by President Bill Clinton in 1998. After September 11, 2001, the ISAC expanded its focus on physical as well as cybersecurity in true all-hazards fashion. Since its formation the FS-ISAC, which is now a global organization with a global focus, has experienced exponential growth within its membership and its staff and the quantity, quality and value of the information shared. It is proud of its strong reputation in the information sharing community. In August, the FS-ISAC staff celebrated 14 years of existence at its new headquarters in Northern Virginia.

Pandemic Exercise Coming Soon In November

The Securities Industry and Financial Markets Association (SIFMA), and The Clearing House Association along with government partners such as FEMA Region II, will be sponsoring a two-year series of pandemic influenza continuity exercises.
